

Livefirm is committed to conducting our services in an environmentally responsible and sustainable manner to protect the environment. We recognise the impact that our operations can have on the environment and are aiming to continually improve in our environmental performance. Livefirm will comply with all environmental legislation, ISO14001 standards and contract requirements that are applicable to the company's operation.

Energy & Climate Action

We will identify opportunities to reduce our operational energy consumption and direct emissions.

Resource Recovery & Waste Avoidance

We will promote resource recovery and reductions in waste-to-landfill.

Natural Environment

We will address our impacts in biodiversity and prevent pollution of the natural environment by promoting awareness in conserving our natural environment.

Conclusion

At Livefirm, we are committed to building a more sustainable future and recognise that the responsibility for environmental protection is shared among us all. We will continually strive to improve our environmental performance and encourage our employees, contractors and partners to join us in this endeavour.
